Governance still to be decided in the partnership!

Internal vs external calls

Internal vs external calls

- Difference is the way they are organised and the cost categories that would be used:
 - Internal calls:
 - Consortium does the activities, and present their costs
 - In-kind contribution only to be used in internal calls, in-cash cannot be used, added cash needs to come by the consortium by external money
- The extent internal vs external calls are being used is up to the consortium in the partnership, depending on what purpose fits the objectives best

THANK YOU
